Guidance Notes for Tenants

An 'Inventory and Condition Report' is a written document that records the observed state of the property, its contents, furniture, fixtures and fittings.

An Inventory should be carried out for both furnished and unfurnished properties.

It is important that tenants take care acknowledging the recorded information, as it will be used as a basis for any claim of damage or change in condition at the end of the tenancy.

What is the need for an Inventory?

An Inventory is an essential document that is used to define the true condition, cleanliness and the contents of the property at the start of the tenancy and is used at 'Check Out' to verify any issue relating to cleanliness, damage, missing items or a change in condition at the end of the tenancy.

The Tenancy Deposit Scheme (Scotland) Regulations became law on 7 March 2011 with the aim to 'protect' the tenant's deposit. This will ensure good practice in deposit handling and will assist in the case of a dispute.

Edinburgh Inventory Services act as an independent, unbiased, 'Inventory Management Company', who serve the interests of both the landlord and the tenant(s). Our professionally produced inventories effectively preserve the landlord's property as well as protect the tenant's deposit.

Inspections and Protecting your Deposit

Pets and smoking are generally prohibited in rented accommodation. The inventory clerk will inspect the property for signs of pet or smoke related stains, odours or discolouration. Written permission must be obtained from the landlord or letting agency prior to smoking or allowing pets into the property.

We strongly advise that you get written permission from the landlord / agent before putting up shelves or pictures or installing satellite / cable services, as charges will result from any repairs to holes, nails or screws in walls and / or tears to wallpaper.

Working order and condition

This Inventory and Condition Report relates only to decoration, furnishings, equipment and contents within the property. It is no guarantee of, or reports on, the adequacy of, or safety of, any such equipment or contents and is merely a record that such items exist within the property at the date of completion and a superficial condition of the same. It is understood that the condition of the fabric and contents are normally age worn and age marked unless otherwise noted - those items will be referred to within the Inventory and Condition report as condition '2'.

Structural

This Inventory and Condition Report does not constitute a structural survey. Fixtures and fittings are listed, described but does not report to the working order.

Comments

Where the descriptive words 'gold', 'silver', 'chrome', 'brass', 'SS', oak', 'pine' etc. are used, it is understood that this is a description of the colour and type but does not guarantee the actual fabric unless documentary evidence is available. The description of the listed item is for identification purposes only as we do not attempt to determine whether the item is genuine or reproduction.

Maintenance

Any maintenance problems found at the commencement or during the term of the tenancy should be reported to the landlord / letting agent, not the inventory clerk.

Furnishings

It is understood that items within the property and listed on the Inventory & Condition Report comply with the Furniture (Fire) (Safety) Regulations 1999 – amended 1993. It is the responsibility of the landlord / letting agent to ensure compliance of such items.

Fire Safety Equipment

It is the tenant's responsibility to ensure that any smoke detectors / carbon monoxide detectors present within the property maintain working order. Any faults should be reported immediately to landlord / letting agent.

General

This Inventory & Condition Report has been prepared on the accepted principle that all items are free from obvious blemishes, faults or damage except where stated. An item that appears 'as new' will be referred to within this report as condition '1'. The 'OIM Condition Calculator' is used as a guideline for descriptive purposes.

Gardens, Locked Rooms, Lofts, Cellars

This Inventory and Condition Report does not cover gardens, locked rooms, lofts or cellars. Contents in such areas will therefore not be listed. If accessible the Inventory Clerk will take photographs at the time of completion and include these within the report. These photographs will be referred to at Check Out for comparison.

Windows and doors

Windows are considered to be free of any damages unless otherwise stated. Doors are checked where keys are provided. Any faults should be reported as a maintenance problem to the landlord / letting agent.
