## **Guidance Notes for Tenants**

An 'Inventory and Condition Report' is a written document that records the observed state of the property, its contents, furniture, fixtures and fittings.

An Inventory should be carried out for both furnished and unfurnished properties.

It is important that tenants take care acknowledging the recorded information, as it will be used as a basis for any claim of damage or change in condition at the end of the tenancy.

### **What is the need for an Inventory?**

An Inventory is an essential document that is used to define the true condition, cleanliness and the contents of the property at the start of the tenancy and is used at 'Check Out' to verify any issue relating to cleanliness, damage, missing items or a change in condition at the end of the tenancy.

The Tenancy Deposit Scheme (Scotland) Regulations became law on 7 March 2011 with the aim to 'protect' the tenant's deposit. This will ensure good practice in deposit handling and will assist in the case of a dispute.

Edinburgh Inventory Services act as an independent, unbiased, 'Inventory Management Company', who serve the interests of both the landlord and the tenant(s). Our professionally produced inventories effectively preserve the landlord's property as well as protect the tenant's deposit.

### **Inspections and Protecting your Deposit**

Pets and smoking are generally prohibited in rented accommodation. The inventory clerk will inspect the property for signs of pet or smoke related stains, odours or discolouration. Written permission must be obtained from the landlord or letting agency prior to smoking or allowing pets into the property.

We strongly advise that you get written permission from the landlord / agent before putting up shelves or pictures or installing satellite / cable services, as charges will result from any repairs to holes, nails or screws in walls and / or tears to wallpaper.

### **Structural**
